

“What are your thoughts”

Here is an invitation for all AA members to take this survey and questionnaire presented to inspire harmony into our West Hawaii local fellowship of Alcoholics Anonymous. A voluntary AA member only survey to help read it's temperature and gage real time members stance regarding the impact of the Pandemic locally.

Also, to ask each member near or far to participate in a researching relevant CDC county state do's and don'ts. To send all findings to the Vice-Chair email address provided below, as a unified front moving forward. Much Appreciation for your participation.

Please complete these questions in your own words and send your completed survey back via email. Or if you prefer hand carry your survey into our central office and put it in the Box marked “Survey”. Thank you for your participation as an individual and/or a group conscience. As this information will be a very helpful tool for our committee.

Questions are:

1. What types of activities would you be interested to see while under CDC Mandates? And can you share what information you have found to base your answer(s) on?
2. What types of fundraisers do you feel would fit in our current Pandemic crisis?
3. On a scale from 1 – 10 how would you rate the understandings of our local mandates regarding Covid 19? 10 being greater.
4. What if, any suggestions can you give to the Activities committee to generate Inspiration to our local (AA members) fellowship?
5. Lastly, please feel free to write your thoughts on any topic. We want to hear everyone's voice at every angel possible. We will not judge.

Mahalo Nui,

The Activities Committee

Please email any CDC information you have and completed survey to:
